

Biosecurity alert: European wasp

European wasp is a threat to our outdoor lifestyle, safety, horticulture industries and environment.
Help us find and destroy every nest!

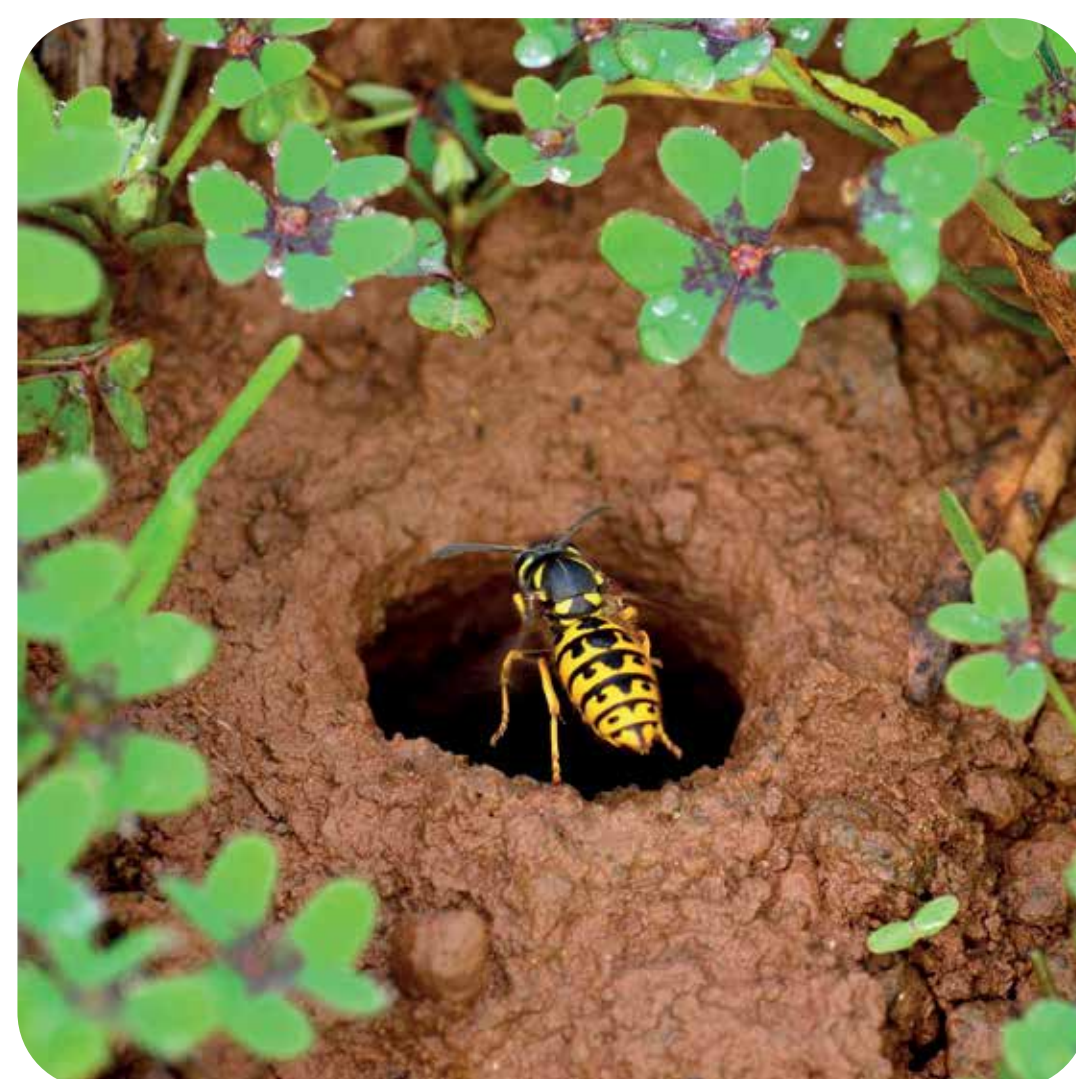

LOOK for these distinctive characteristics

- Black antennae, bee-shaped body, about 15 mm

- Feeding on human and pet food

- Flying in and out of a single hole in the ground

- Raised legs during flight

DO NOT attempt to destroy a nest.

The Department of Primary Industries and Regional Development will attend and destroy free of charge.

REPORT this dangerous and destructive pest
